

International conference for educational organizations and working life

Innovations for Competence Management

The conference is designed to be an integrative platform and to promote networking and stimulate discussions between representatives of educational organizations and working life.

Themes of the conference are comprised of various innovative and future oriented topics:

- Competence management (i.e. HRM, HRD, Foresight of future competencies, Strategic human resource management)
- Proactive organizations (i.e. Promoting individual innovativeness, Innovative practices in business, Knowledge management)
- Educational organizations in innovation systems (i.e. Regional development, Expectations between working life and education, Learning and teaching environments in the future)

CALL FOR PAPERS is released and the deadline for abstract submission is by February 4, 2011.

Further information on the conference is found on www.phkk.fi/kit/conference

See you in Lahti 2011!
