

Errata

Vol.6, No 2-3, 1995, pp 65-77

In the paper: 'A comparison of pitfall trapping and quadrat sampling of Carabidae (Coleoptera) on river banks' by Johan Andersen several numerals in Appendix 3 (p.77) are in wrong columns. A corrected and simplified table without confidence limits (the confidence limits are correctly placed relative to the numerals ahead of them in the original appendix) is as follows:

Appendix 3. Catches from pitfall traps (P) and quadrat samples (Q) in various microhabitats on locality 2, July 1988. The table gives total number of specimens collected of each species. For further explanation see Appendix 1.

Species		MICROHABITAT							
		3a		4a moss		4a Carex		4b	
		P	Q	P	Q	P	Q	P	Q
<i>Pelophila borealis</i>	N	11		3		339		46	
<i>Bembidion schuppelii</i>	D	9	15	27	66	2	15	11	2
<i>B. bipunctatum</i>	D	2		36	4		6	111	20
<i>Elaphrus cupreus</i>	D	11		8	2	2			
<i>E. riparus</i>	D			9		1			
<i>Lorocera pilicornis</i>	D	1				3			
<i>Clivina fossor</i>	D	3		2				20	
<i>Patrobis assimilis</i>	N	7					1		
<i>P. septentrionis</i>	N	2		1					
<i>B. bruxellense</i>	D				1	1	1		
<i>Dyschirius septentrionis</i>	D	3	1		1				
<i>Calathus melanocephalus</i>	N	7		1				1	
<i>Agonom fuliginosum</i>	N				1	9	1	2
