MIE Medical Informatics Europe 2023 "Caring is Sharing - Exploiting Value in Data for Health and Innovation" 22.-25.5.2023 Gothenburg, Sweden

The conference theme 2023 is "Caring is Sharing", and this is closely connected to the rapid development of health data sharing taking place both in Europe and globally. We want to focus on the opportunities of health informatics and the research within the EFMI community to enable trustworthy sharing of health data to improve human health. This includes healthcare, community care, self-care and public health, as well as innovation and devel-opment of future proof digital health solutions.
