The Nordic Conference on Digital Health and Wireless Solutions 2026 (NCDHWS2026)

We are pleased to share that the [full scientific program](#) for the Nordic Conference on Digital Health and Wireless Solutions 2026 (NCDHWS2026) has now been released. Early bird registration is open until April 22nd — register now to secure the reduced fee

The Nordic Conference on Digital Health and Wireless Solutions 2026 (NCDHWS2026) will be held at the University of Oulu's Kontinkangas campus on **June 16–17, 2026**.

The event brings together researchers, physicians, nursing professionals, engineers, and industry representatives to explore how digital health and wireless innovations can transform healthcare systems.

This multidisciplinary conference is organized by the University of Oulu's 6GESS and DigiHealth research programs in collaboration with Profi6-Fibrobesity, Profi8-Health Dimensions, Oulu Brain & Mind, and regional partners OAMK, Oulu University Hospital, Pohde, and BusinessOulu.

Conference highlights:

- 20 Keynote lectures by [international experts](#)
- 105 Research paper presentations
- 33 Poster exhibitions
- Company and project exhibitions
- [On-site visits](#), such as a tour of the new Oulu University Smart Hospital
- Networking opportunities

Registration and participation fees:

Registration for NCDHWS2026 is open. The Early Bird fee is €245 before April 22, 2026; after that, the fee increases to €295. Detailed instructions are available at: <https://nordic-digihealth.com/registration/>

Additional information:

Detailed guidelines and further details can be found at <https://nordic-digihealth.com>. The website also includes an overview of the previous event, NCDHWS2024, with direct access to its open-access publication.

We warmly welcome you to Oulu, [the European Capital of Culture](#), in June 2026 for an inspiring exchange of ideas on the future of digital health and wireless solutions.

Kind regards,

Jarmo Reponen, Prof, conference president

Simo Saarakkala, Prof, conference vice-president

eHealth Conference 2026 – Effective Digital Solutions in Health Care and Social Welfare Services

October 1–2, 2026 | Helsinki, Finland

The Finnish Society of Telemedicine and eHealth invites researchers, developers, professionals, and decision-makers across health care, social welfare, rehabilitation, and technology sectors to join the **eHealth Conference 2026**. This year's theme, "**Effective Digital Solutions in Health Care and Social Welfare Services**," highlights impactful innovations and evidence-based digital practices across the field.

The annual conference will take place at **University of Helsinki** and is organized in collaboration with **the Finnish Society for Effectiveness in Social and Health**.

Call for Abstracts

Abstract submissions are open from **March 2 to May 3, 2026**.

Detailed submission guidelines are available at:

<https://www.telemedicine.fi/call-for-abstracts-ehealth2026/>

Programme & Registration

The full conference programme has been published, and registration is now open:

<https://www.telemedicine.fi/ehealth2026/>

Registration Fees

- **Early Bird (until June 30, 2026):**
Members of the Impact Society and the Finnish Society of Telemedicine and eHealth: **€420** (+ VAT 25.5%)
Non-members: **€450** (+ VAT 25.5%)
- **Standard Fee (from July 1, 2026):**
All participants: **€525** (+ VAT 25.5%)
(Member pricing no longer applies after June 30.)
- **Undergraduate students 95€ (+ alv 25,5 %)**
(The undergraduate student fee includes the program, coffee service, and lunches, but not dinner)

Join us in Helsinki to explore cutting-edge digital health innovations and foster collaboration across sectors shaping the future of health and social welfare services.

The 2026 Successes and Failures in Telehealth Conference (SFT-26)

will be held **5-6 November 2026** at the Brisbane Convention & Exhibition Centre, Australia.

Earlybird registrations are available for SFT-26.

Abstract submissions are open from February 2 to May 18, 2026.

Presentations from researchers, health professionals, service providers, and government representatives are welcomed. All aspects of virtual care are encouraged, including clinical case studies, service models, formal evaluations, implementation strategies, and activity reports.

“Experiences of Digitalized Healthcare” event

June 2-4, 2026, Aalto University (Konemiehentie 2, Espoo, Finland)

Welcome to an open event, organized by an international consortium at the university. The event explores emerging digital health challenges and proposes a path forward. The event aims to identify challenges and contradictions that can be addressed through collaborative research, personalized experiences, and a human-centric approach. We examine experiences of digitalized healthcare from various stakeholder perspectives:

- Patients’ and caregivers’ experiences
- Healthcare professionals’ experiences
- Social and organizational perspectives
- Design perspective

The event includes:

- **A PhD course** for students pursuing PhD studies on related topics (June 2-4, from 9:00 AM to 4:30 PM)
- **Open seminar talks** given by international faculty for a wider audience (June 2, from 10:00 AM to 12:30 PM, and June 3-4, from 9:00 AM to 12:30 PM)

More information and registration to the PhD course: <https://www.aalto.fi/en/events/experiences-of-digitalized-healthcare>
