Medinfo23 19th World Congress on Medical and Health Informatics, 8.-12.7.2023, Sydney, Australia

Our event theme – THE FUTURE IS ACCESSIBLE – aims to inspire us to lead the conversation and implement actions where we collectively are building a health sector that is accessible, where data is not locked in silos and where both clinicians and consumers can work together in true part-nership towards healthier lives, digitally enabled.

Submission closed 18.11.2022.
