

9th International Conference on Information Technology and Applications in Biomedicine (ITAB 2009)

Theme of the Conference: Citizen Centered e-Health Systems in a Global Healthcare Environment Larnaca, Cyprus, November 5-7, 2009.

The overall objective of ITAB 2009 is to cover the state of the art of Information Technology Applications in Biomedicine targeting in the offering of a better service to the citizen. The theme of the conference will be: Citizen Centered e-Health Systems in a Global Healthcare Environment.

Papers and special sessions covering a broad spectrum of themes are invited but not limited to the following tracks: Biomedical Signal Processing and Analysis, Biomedical Image Processing and Analysis, Bioinformatics and Computational Biology, Systems Biology and Modeling Methodologies, Diagnostic and Therapeutic Systems, e-Health Systems, m-Health Systems, and Telemedicine Systems.

The submissions should contain original, high quality, not submitted or published elsewhere work. Papers should strictly follow IEEE format and have a page limit of 4 pages. All accepted papers will be included in the proceedings of ITAB 2009 that will be published by the IEEE Xplore (expecting confirmation soon).

Extended versions of selected papers of the conference will be invited for publication in special issues of the IEEE Transactions on Information Technology in Biomedicine, the Biomedical Signal Processing & Control Journal, and other International Journals (SCI Indexed).

Students are encouraged to submit their papers for the ITAB 2009 studentpaper competition, following the regular paper submission procedure.

Important Dates:

Paper Submission Deadline: June 15, 2009

Acceptance Notification: July 30, 2009

Camera Ready Paper: August 30, 2009

Early Registration: September 15, 2009

Final Program Available: September 15, 2009

Hotel Reservation: September 15, 2009.
