IMIA Yearbook 2009

The IMIA Yearbook of Medical Informatics 2009 has been published; the theme is "Closing the loops in biomedical informatics". Members who participated in MIE2009 have already received copies; others will begin receiving their

copies through the normal channels in the near future.

The 2009 Yearbook includes an 'In memoriam' feature on Steven Huesing, with contributions from several past presidents of IMIA. We thank the Yearbook editorial and production team, and in particular Martina Hutter, for all their hard work.
