**MIE2016 - HEC2016, Munich, Germany 28.8–2.9.2016**

MIE2016, will be held in conjunction with GMDS, DGEpi, and IEA.

This is one conference joining the activities of four scientific disciplines Medical Informatics (MIE2016), Medical Biometry, Bioinformatics, Epidemiology and Health Data Management.

It will serve as an important scientific forum for the exchange of new ideas and applications to strengthen health sciences on a national and international level. The analysis of health as a complex system opens new perspectives on a challenging reality: filtering current hypotheses, resolving controversies, and tailoring interventions to the need of the individual within a health system environment.
