KONGRESSEJA / CONGRESSES

NI2012

NI 2012 is the 11th World Congress on Nursing Informatics. The conference theme is Advancing Global Health Through Informatics. It is held under the auspices of the IMIA Special Interest Group in Nursing Informatics (IMIA-NI), and will be organised by AMIA.

The NI series of conferences is the leading gathering in the world for nurses interested in the use of informatics and health information technology. Past congresses in Helsinki, Finland; Seoul, Korea; Rio de Janeiro, Brazil; Auckland, New Zealand; Stockholm, Sweden; Austin, Texas, USA; and Melbourne, Australia have drawn thousands of nurses and produced vibrant and sustainable results. NI 2012, scheduled in beautiful Montreal, Quebec, Canada, will be no different!

The latest information on NI 2012 will always be on the official NI 2012 website - <http://www.ni2012.org>

Key dates:

17 May 2012 - Last day of Advance Registration - via <http://www.ni2012.org/registration>

23 - 27 June 2012 - NI 2012 in Montreal, Canada.

MIE2012

MIE2012, the XXIV Conference of the European Federation for Medical Informatics (EFMI), will be held in Pisa, Italy. MIE2012 will be organised by the Italian Association for Medical Informatics (AIIM), the Italian eHealth Community, and EFMI and held from August 26th to 29th, 2012. The theme is "Quality of Life through Quality of Information".

Three main streams have been identified for the Conference programme:

- Papers, Posters, Panels, Workshops, Short Communications, and Tutorials
- 'Village of the Future' which will try to mash-up developments to empower citizens, patients and care providers
- Commercial stream for Industrial and SME participants with the exhibition and other contributions

Registration to the conference is due to be open from April 1, 2012. Early bird registration deadline is 7 May, 2012.

CALL FOR PAPERS

APAMI-2012 Conference - Call for Papers

The 7th Asia Pacific Association for Medical Informatics Conference (APAMI-2012) will be held at the Crowne Plaza Beijing Sun Palace, Beijing, China on October 22-25, 2012. The Call for Papers is now open - closing date for submission of FULL PAPERS is June 10, 2012. The Call for Papers (document in English) is available at <http://wp.me/pvCUS-16Z>.

The theme of the event is "New situation, New technology and New opportunity", with the emphasis on using information technology to improve healthcare services.

IFIP/IMIA Working Conference, Interfacing bio- and medical informatics - 27 September, 2012

The Call for Papers is open for the IFIP/IMIA International Working Conference on Interfacing bio- and medical informatics, to be held on 27 September, 2012 in Amsterdam, The Netherlands. The IFIP/IMIA event will be held as part of the 22nd IFIP World Computer Congress 2012

<http://www.wcc-2012.org>

The Call for Papers closes on 15 May, 2012.

The topic of this meeting will be the link between bioinformatics and medical informatics. IFIP's Working Groups 5.13 Bioinformatics and its applications and IMIA's Working Group on Informatics in Genomic Medicine (IGM) are working in this area and supporting this event.

Contributions are solicited that cover the interface between bioinformatics and medical informatics; they can be offering research contributions as well as papers providing practical cases, and proposals for panel discussions are also invited.

EJBI Call for Papers: Standards and Solutions for eHealth Interoperability

Prof. Jana Zvárová, Editor-in-Chief of EJBI, announces that the European Journal for Biomedical Informatics (EJBI), an official journal of the European Federation for Medical Informatics (EFMI), seeks papers for a special issue on Standards and Solutions for eHealth Interoperability. The deadline for submissions is June 15, 2012.

Manuscripts should be prepared according to the Instructions for Authors (<http://www.ejbi.eu/editorial/instructions.html>) and sent electronically to manuscripts@ejbi.org EJBI asks for

papers in English version, which will be reviewed, and simultaneously the same manuscript translated in at least one other official European language. The editors of the special issue are (Head, German eHealth Competence Center, University Hospital Regensburg, Germany; Chair, CEN/ISSS eHealth Standardisation Focus Group) and Robert Stegwee (Capgemini Consulting; Professor of eHealth at University of Twente, Chair of CEN TC251 on Health Informatics).

KOULUTUS / EDUCATION

New Digital Healthcare MSc, University of Warwick (England)

The Institute of Digital Healthcare, at the University of Warwick (England, United Kingdom), is launching a new Masters programme in October 2012 in Digital Healthcare. The programme will be offered as an MSc with special focus i.e. MSc in Digital Healthcare (engineering) or MSc in Digital Healthcare (clinical) on a full-time or part-time basis. Partial studentships are available; the application deadline for these is the end of May 2012. Details about the course are at

<http://www2.warwick.ac.uk/fac/sci/wmg/education/wmgmasters/courses/dh/>

Launch of The Social MEDia Course

The Social MEDia Course (<http://thecourse.webicina.com/>) is a free online course, available to anyone to access. While the course was primarily designed for medical and public health students as well as medical professionals, the vast majority of the presentations can provide useful pieces of information for patients and basically for everyone interested in health and social media.
