Tiedotukset ja tapahtumat

SEMINAAREJA / SEMINARS

Sosiaali- ja terveydenhuollon tietosuojaseminaari 13.-14.11.2012 Hämeenlinnassa. Seminaari on tarkoitettu kaikille, jotka työssään tai luottamustoimessaan ovat terveydenhuollon tai sosiaalihuollon tietosuoja-asioiden kanssa tekemisissä.

Seminaarin järjestävät tietosuojavaltuutetun toimiston johdolla toimivat terveydenhuollon ja sosiaalihuollon tietosuojan ohjausryhmät (Tellu ja Sohvi) yhteistyössä Kanta-Hämeen sairaanhoitopiirin, Hämeenlinnan kaupungin, Suomen Kuntaliiton ja FCG Finnish Consulting Group Oy:n kanssa.

E-hoito & Connected Health 2012 – seminaari 20.-21.11.2012 Pörssitalossa, Helsingissä

Jatkuvat tietojärjestelmien kehitystarpeet - miten päästä kierteestä?

Terveydenhuollon tietojärjestelmät tukevat huonosti lääkärien päivittäistä työtä, esimerkiksi yksinkertaisen sanelun tallentaminen vaatii 60 klikkausta. Käyttäjäystävällisellä suunnittelulla lääkärien ja hoitohenkilökunnan työaikaa saataisiin suunnattua varsinaiseen työhön. Mutta miten se onnistuisi?

Teemat 2012:

- Workflow across organizational borders.
- Telemedicine solutions in chronic illness.
- Ecosystems – permanent development environments.
- Miltä näyttää julkisen hallinnon ICT-toiminnan linjaukset?
- Järjestelmien kehittäminen käyttäjäryhmien tarpeista käsin.

Medinfo2013 - First Call for Papers, Posters (http://wp.me/pvCUS-1fn)

On behalf of Medinfo2013 Scientific Program Committee (SPC) Co-Chairs Dominik Aronsky, MD, PhD (dominik.aronsky[at]vanderbilt.edu) and Tze-Yun Leong, PhD (leongty[at]nus.edu.sg), we are pleased to announce the first preliminary Call for Papers, Student Papers, and Poster Submissions.

The closing date for submission will be: 10 December 2012 See http://wp.me/pvCUS-1fn for further information and call document

Information on calls for other forms of submission, and on the opening of the submission system, will be made in the near future.

KOULUTUS / EDUCATION

Australian Health Informatics Summer School in Sydney, Australia: 4-8 Feb 2013

The University of Western Sydney will host its 3rd Health Informatics "Summer School" in Sydney consisting of a series of short courses during the week of 4-8 February 2013 to address these needs. Each short course will be run as a full day intensive mode classroom or workshop style session delivered by a team of invited national experts and UWS Health Informatics staff. Each short course will be limited in attendance to a maximum of 30 participants, to ensure an adequate level of personal interaction with the presenter is achievable. Notes from presentations and certificates of attendance will be provided. The short courses are not intended to be eligible for academic credit in university degree courses.

Leadership Strategies for Information Technology in Health Care
– from Harvard School of Public Health

The Harvard School of Public Health Executive and Continuing Professional Education offers a program titled "Leadership Strategies for Information Technology in Health Care"

See full information at https://ecpe.sph.harvard.edu/Health-IT

This program, comprised of four modules, provides health care leaders with the knowledge necessary to effectively design, develop, and deploy health information technology. The modules in this series are designed specifically for professionals and executives with technology responsibilities from diverse sectors of health care seeking to improve their organization's health IT strategy and improve IT outcomes.

The program is offered on the following dates: February 3 – 8, 2013 (Modules 1 & 2) and May 13 – 17, 2013 (Modules 3 & 4).
