KONFERENSSIT/CONFERENCES

eHealth2019 - International Conference & The 24th Finnish National Conference on Telemedicine and eHealth, "Tieto ei ole kaakana" Kuopio, 2.–3.4.2019

Vuoden 2019 konferenssissa käsitellään teemoja ja tuodaan uusinta tietoa kansainvälisestä, pohjoismaisesta sekä kansallisesta digitaalisesta terveydenhuollon kehityksestä ja ratkaisuista. Ohjelma on suunnattu niin terveydenhuollon arjen ammattilaisille kuin tekniikan ja palveluiden kehittäjille. Konferenssin vierailukohteet tarjoavat näköalapaikan uusien ratkaisujen käytännön soveltamisesta terveydenhuoltoon ja ihmisten arkeen. Kohtauspaikkana seminaari tarjoaa tuoretta tietoa niin lääkäreille, hoitohenkilökunnalle kuin hallinnosta, suunnittelusta ja koulutuksesta vastaaville. Konferenssi sisältää englanninkielisen ja suomenkielisen rinnakkais-ohjelman.

Sosiaali- ja terveydenhuollon tietojenkäsittelyn 22. tutkimuspäivät – "Kuinka varmistetaan tiedonhallinnan osaaminen sote-murroksessa?", Tampere, 6.5.2019

Sosiaali- ja terveydenhuollon tietojenkäsittely-yhdistys ry järjestää 22. sosiaali- ja terveydenhuollon tietojenkäsittelyn tutkimuspäivät Tampereella ma 6.5.2019 Sosiaali- ja Terveydenhuollon atk-päivien yhteydessä. Tutkimuspäivät muodostavat foorumin Suomessa tehtävälle sosiaali- ja terveydenhuollon informatiikan, tietotekniikan ja tiedonhallinnan tutkimukselle ja kehittämistoiminnalle. Papereihin liittyvien esitysten lisäksi tutkimuspäivillä on mahdollisuus seurata myös keynote-esityksiä.

24th ISfTeH International Conference and Portugal eHealth Summit 2019, Lissabon, Portugali, 19.–20.3.2019

The exciting opportunity to see and hear about Portuguese and international telemedicine and eHealth developments. The Portugal eHealth Summit 2019 is scheduled for 19-22 March 2019. The ISfTeH International Conference, scheduled as part of the overall Summit program, is scheduled for 19-20 March. ISfTeH National Member for Portugal and Spain, SITT, is also actively supporting and contributing to the conference.

The Portugal eHealth Summit is an initiative of the Portuguese Ministry of Health and promoted by the Shared Services of the Ministry of Health (SPMS) and its National Center of Telehealth (CNTS) who are an institutional member in the ISfTeH. It is not only Portugal's largest gathering on digital transformation and innovation in the health sector, but also one of the largest in Europe with more than 13,000 people in attendance, and even more (22,000) who accessed the livestream of the 2018 event! The Portugal eHealth Summit has leveraged the country's strategic position in advancing the digital revolution in health, not only at the national level, but at the international level and transversal to all areas of society.

AMIA Informatics Summit 2019, San Francisco, USA, 25.–28.3.2019

The AMIA 2019 Informatics Summit follows the tradition of offering an exciting, innovative and engaging program around four main areas: Translational Bioinformatics, Clinical Research Informatics, Implementation Informatics and Data Science. We want to promote a vibrant scientific ensemble and connect within and across these knowledge domains, particularly looking for new ideas and innovations that bridge across these areas of the field. Our program will carefully blend scientifically sound "deep dive" sessions with equally essential offerings designed to promote learning, and the exchange of ideas and experiences. Expect to see activities dedicated to trending new areas, like 3D data methods and analytics to be part of the program.

EFMI STC 2019 ICT for Health Science Research, Hannover, Saksa, 7.–10.4.2019

Peter L. Reichertz was a pioneer in applying information technology to health care. Together with François Grémy, he introduced the phrase "Medical Informatics" and its key paradigm, providing "the right information at the right place at the right time" when he started his academic work in this field at the Hannover Medical School, MHH, Germany in 1969. Prof. Reichertz was the first president of European Federation of Medical Informatics, EFMI.

This EFMI Special Topic Conference (STC) is dedicated to Prof. Peter L. Reichertz, celebrating his 50th academic anniversary in medical informatics: In 1969, Peter L. Reichertz became Full Professor at the newly founded MHH in Germany. He held the first chair of the department on medical documentation and data processing – later the Medical Informatics Department – at that time including the Medical Computer Center. In the early eighties, he established with Prof. D. Peter Pretschner the Medical Informatics courses at the University of Braunschweig, Institute of Technology. In 2007, the departments in Hanover and Braunschweig joined forces and became the Peter L. Reichertz Institute for Medical Informatics, PLRI.
