# Tiedotukset ja tapahtumat / Announcements and events

**KONFERENSSIT/CONFERENCES**

**#eHealth2020 – International Conference & The 25th Finnish National Conference on Telemedicine and eHealth,** *"From Dream to Reality"* **30.9.–2.10.2020, risteily kahden pääkaupungin Helsingin ja Tukholman välillä.**

Vuoden 2020 kansainvälisessä konferenssissa käsitellään teemoja ja tuodaan uusinta tietoa kansainvälisestä, pohjoismaisesta sekä kansallisesta digitaalisesta terveydenhuollon kehityksestä ja ratkaisuista. Ohjelma on suunnattu niin terveydenhuollon arjen ammattilaisille kuin tekniikan ja palveluiden kehittäjille. Konferenssin vierailukohteet Tukholmassa tarjoavat näköalapaikan uusien ratkaisujen käytännön soveltamisesta terveydenhuoltoon ja ihmisten arkeen. Kohtauspaikkana konferenssi tarjoaa tuoretta tietoa niin lääkäreille, hoitohenkilökunnalle kuin hallinnosta, suunnittelusta ja koulutuksesta vastaaville. Konferenssi järjestetään englanninkielisenä.

**Teemojamme:**
• Nordic digital experience
• Data lakes or leaks
• Personalized care - thank you!
• Digital competence in health
• Test beds and medical devices - pros and cons
• Citizens as user of digital health
• eHealth and eWelfare in practice
• Co-creation orchestration.

**EFMI Special Topic Conference (STC) 2020** *"Integrated Citizen centered digital health and social care – Citizens as data producers and service co-creators",* **26.–27.11.2020.**

The STC2020 will be held as an electronic conference. The topic of the conference is *"Integrated citizen centered digital health and social care – Citizens as data producers and service co-creators".* This topic gives the opportunity to present innovative solutions to let the citizens to take greater responsibility of their health with the help of information and communication technology. Some of the solutions can still be in research state and some can already report results and experiences of implemented systems in use. This conference is an excellent place to get connected to other researches working in this area.

**Full papers, posters, workshops and panels are welcome on topics including (but not limited to):**
• Tools and technologies to support citizen centered digital services
• Capacity building to enhance the development and use of digital services
• Confidentiality, data integrity and data protection to guarantee trustworthy services
• Citizen safety in digital services
• Effectiveness and impacts of citizen digital and integrated health and social services
• Evaluation approaches and methods for digital services
• Usability, usefulness and user acceptance of digital services
• Guidelines for successful implementation of digital services for citizen.

Deadline 15.7.2020

**pHealth 2020, Praha, Tsekki, 14.–16.9.2020**

The 2020 edition of pHealth will emphasize the interrelated aspects framing ubiquitous pervasive health: mobile technologies, wellness, micro-nano-bio smart systems, bio-data management and analytics for personalized health, precision medicine and virtual

care. It also addresses new potential risks for security and privacy as well as safety chances and challenges, the motivation of patients in care processes by game and gamification, and health systems challenges in developing countries. The intended outcome is intelligent and connected health devices and services leading to integrated care.

### WIS2020, Turku, Suomi 24.–26.8.2020 as an online-conference

Welcome to WIS 2020, which looks for innovations and fresh ideas in the cross-section of urban living, information society and health as understood in a wide sense. Starting in 2006, this is now the eighth conference in its series. WIS 2020 seeks high-quality contributions based both on scientific research and practical experience. The conference is multidisciplinary in nature, gives room for qualitative and quantitative analysis, empirical surveys, case studies as well as for conceptual work; thereby making WIS 2020 a perfect forum for exchange of information and ideas.

The overreaching theme of the conference is "*Fruits of Respect".*

**Issues of interest include but are not limited to:**
• role of respect and similar assets in society and organizations
• measuring and defining respect in organizational and societal settings
• respect and health and social care delivery
• respect in information systems settings
• individual and respect
• showing respect to citizens, customers and patients
• case studies of organizational and societal failures caused by missing respect
• case studies documenting particular successes rooting in respectful behavior
• responsible research and innovation
• trust and respect in healthcare IS
• welfare systems' ethics
• ethical issues in eSociety.

### 11th Biennal conference Asia Pacific Association for Medical Informatics – Informatics for patient engagement, 21.–23.11.2020, ACT CITY Congress Center, Hamamatsu, Japan

This conference will be organized as an ON-LINE event if not a hybrid event with a parallel ON-SITE session in an improved COVID-19 situation.

Information Technologies have brought a huge change in healthcare systems through Medical Informatics. Now the concept of Patient Engagement multiplies this change for bringing further improvement towards next generation healthcare service. APAMI 2020 is the place to showcase and to get oriented with this new technology with new approach. This is also a place to build your network with the world's leading researchers from all involved fields, from deep learning or genomics, up to human factors, ethical and societal aspects.
