

## Accessions to the Botanical Museum of the Finnish Museum of Natural History, University of Helsinki, in 2007

Pertti Uotila & Mikko Piirainen

Uotila, P., Botanical Museum, P. O. Box 7, FI-00014 University of Helsinki, Finland  
Piirainen, M., Botanical Museum, P. O. Box 7, FI-00014 University of Helsinki, Finland

The herbarium accessions amount to 19,878 specimens, including 5,510 specimens of vascular plants, 2,767 specimens of bryophytes and algae, 11,566 specimens of fungi (incl. lichens), and 35 specimens of zoococcidia. Some details of noteworthy accessions are given here.

The accessions comprise 19,878 specimens incorporated in the Botanical Museum of the Finnish Museum of Natural History, University of Helsinki (acronym H) in 2007 (5,510 specimens in the Phanerogams Division, 2,767 specimens in the Cryptogams Division and 11,566 specimens in the Mycology Division).

The material has been received from the staff of the Museum and of other institutions, and as donations from private persons, or their reliquiae (marked “reliq.”). The Botanical Museum offers the sincerest thanks to all donors. A considerable number of specimens has been obtained by exchange (“e”). Some material has been purchased. The total number of specimens in the systematic collections of H at the end of 2007 was 3,158,001; 1,657,381 of them are spermatophytes, 90,505 pteridophytes, 2,311 zoococcidia, 599,497 bryophytes, 21,900 algae, 399,910 lichenized fungi and 386,497 non-lichenized fungi (including bacteria and viruses).

Some details of the most noteworthy accessions are given below. The italicised abbreviations *Al*, *Ab*, *N*, etc. in the lists refer to the biogeographic provinces of East Fennoscandia (map in Uotila et al., *Memoranda Soc. Fauna Flora Fennica* 77:14. 2001) and *Ög*, *Upl*, *Tr*, *VFi* etc. to the biogeographic provinces of Sweden and Norway (map in

the back cover of Jonsell, B., ed., *Flora Nordica*. 2000–). Abbreviations in capital letters used for the herbaria are according to *Index Herbariorum*, I: The Herbaria of the World (<http://sciweb.nybg.org/science2/IndexHerbariorum.asp>).

Among the accessions the various systematic groups are represented as follows:

	East Fennoscandian Herbaria	General Herbaria	Total
<b>Phanerogams Division</b>
