

Editorial

The International seminar on Compulsory Purchase and Compensation in Land Acquisition and Takings was organized by International Federation of Surveyors (FIG) Commission 9 (Valuation and Management of Real Estate), Helsinki University of Technology TKK and Finnish Association of Real Estate Valuation, in conjunction with the Baltic Valuation Conference, and in cooperation with FIG Commissions 7 (Cadastre and Land Management), FIG Commission 8 (Spatial Planning and Development), the United Nations Food and Agriculture Organization (FAO), World Bank, UN-Habitat and the National Land Survey of Finland (NLS). The seminar was held in Finland at the Helsinki University of Technology (TKK) on 6-8 September 2007, and it was attended by approximately 120 participants from 35 countries.

This special edition of the Nordic Journal of Real Estate Research journal represents a cross section of some of the double-blind peer-review papers presented at the Helsinki Seminar. A comprehensive collection for the papers presented will be available on the FIG website (www.fig.net) later. The editing was done by Prof. Kauko Viitanen and PhD Ibimina Kakulu. Mr. Hannu Aarnio helped with the technical editing. The project was supported by the Ministry of Agriculture and Forest, Finland, FAO and NLS.

I express my thanks to all who worked on this project, took part in the seminar and supported the seminar and the publications.

Kauko Viitanen
